

MODEL PD3000 GANG DRILL

When it comes to drilling posts for round rail and split rail fence, you'll find this machine invaluable. The hydraulic circuit is engineered for optimum feed control and efficient drilling, with low speed, high torque hydraulic motors. This drill is also equipped with a hydraulic clamp for securing the post. The table has a power sliding feature for boring holes side-by-side, producing elongated slots for split rail fence manufacturing. If you're in the market for a versatile drilling machine, this is it!

★ SPECIFICATIONS ★

Power Rating 20 HP 3 Phase

Components Hydraulic

Cycle Time 15 Seconds

Clamp Hydraulic

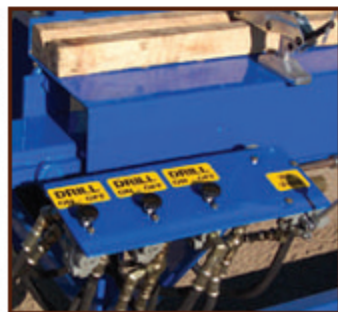

Power Unit Size 3' x 4'

Drill Size 4' x 8'

Power Unit Wt. 500 Lbs.

Drill Wt. 2000 Lbs.

Shipping Wt. 2500 Lbs.
