

MODEL SD60  
**SUPER - DUTY  
POINTER/TENONER**

The SD60 is a high-speed, industrial level chucker for the reliable production of spindles from 3-1/2" to 6" in diameter. It comes standard with the Vari-A-Cut adjustable tenon cutter head. Other styles of cutter head can be installed for pointing and doming posts. A large, self-centering cast iron clamp assembly holds material securely in place while stock is being power-fed into the cutter.
